Why engage with JTAF

- Quarterly publication schedule provides regular dissemination opportunities.
- Tropical agri-food focus connects research with regional and international scientific priorities.
- Structured peer-review and updated workflow policies support editorial consistency.
- Open access and interoperable metadata support discoverability and reuse.
- Institutional base at Mulawarman University in East Kalimantan provides a strong connection to tropical research contexts.

For prospective reviewers and editorial contributors

JTAF welcomes qualified researchers and subject experts who can support rigorous, fair, timely, and constructive scholarly review. Reviewer participation is governed by confidentiality, competing-interest, research-integrity, and Generative AI requirements.
